

Welcome to participate in the two events

Water and Sewage Treatment at European Level

29 – 31 of March, Chisinau, Moldova

19 -21 of April, Pitesti, Romania

as part of the cooperation between Borlänge, Romania, and Moldova

The first event will take place in Chisinau, the capitol of Moldova. The city has around 700 000 inhabitants. Their water and wastewater company is called Apa Canal. This is also the name of our water and wastewater partner in Pitesti, Romania, that also will attend this event. The events are part of a three-part project between our cities. The wastewater treatment plant in Chisinau has a PE of 730 000. The second event will take place in Pitesti, Romania. They have 200 000 inhabitants and their wastewater treatment plant a PE of 230 000.

Program

for 29-31 of March in Chisinau (A more detailed schedule will be sent to you later.)

Monday

Introduction and visits to two villages in Moldova to see how small scale water and waste water solutions both work and in many cases doesn't exist.

Tuesday

Focus on the wastewater treatment plant in Chisinau but also visits to other parts of the system. In the evening we will have a common dinner.

Wednesday

Press conference and a conference focusing on reaching a European level in this sector of water and wastewater treatment. Companies and organizations invited by Borlänge Energy will hold presentations. In the afternoon there will be organized individual conversations. All water and wastewater treatment organizations in Moldova and politicians are invited.
